

Automatic Filter Gasket Installing Machine

Internal Product ID: ENFT-OFM-028

Brand	Enft
Model Number	Enft
Place of Origin	china
Certification	ISO 9001
Min. Order Qty	100
Price	20
Supply Ability	1000
Packaging	stp
Delivery Time	20
Payment Terms	T/T,L/C

Overview

High-efficiency automatic machine designed for precise installation of filter bottom gaskets, featuring stable operation, automatic feeding system, and integrated leakage detection.

Description

Equipment Function:

Installation of the bottom gasket of filters.

Production Speed:

35 pieces/minute

Electrical Specifications:

Voltage: 220V

Total Power: 3 KW

Air Pressure: "e 0.6 MPa

Equipment Features:

Turntable-type structure for fast and convenient mold change

Integrated gasket leakage detection function

No manual intervention required, ensuring high product stability

Vibrating plate feeding system for gasket supply

Dimensions:

1300 × 2500 × H1800 mm
