

# Automatic Oil Filter Paper Pleating Machine

Internal Product ID: ENFT-OFM-035 • ENFT-RPM-005

|                     |                                           |
|---------------------|-------------------------------------------|
| Unit of Measurement | Set                                       |
| Brand               | ENFT                                      |
| Model Number        | OPP-600                                   |
| Place of Origin     | China                                     |
| Certification       | Manufactured Under Strict Quality Control |
| Min. Order Qty      | 1                                         |
| Price               | 17,794.31                                 |
| Supply Ability      | 100                                       |
| Packaging           | Standard Export Packaging                 |
| Delivery Time       | 45 Days After Receipt of Advance Payment  |
| Payment Terms       | 30% Deposit 70% Before Shipment           |

## Overview

High-end paper folding machine specifically designed for oil filter element processing. Features full automation including tension adjustment, humidification, and shaping for high-speed, precise production.

## Description

| Specification              | Details                                           |
|----------------------------|---------------------------------------------------|
| Equipment Function         | Automated Folding and Shaping of Oil Filter Paper |
| Maximum Filter Paper Width | 600 mm                                            |
| Customizable Width         | 400–600 mm                                        |
| Paper Fold Height          | 12–32 mm                                          |
| Working Speed              | Up to 70 m/min                                    |
| Main Motor Power           | 1.5 kW                                            |
| Steam Humidification Power | 2.6 kW                                            |
| Shaping Heating Power      | 6.0 kW                                            |
| Temperature Control Range  | Room Temperature–200°C                            |
| Air Source Pressure        | 0.8 MPa                                           |
| Pattern Rollers            | Inner & Outer Patterns                            |
| Indentation Rollers        | Equipped                                          |
| Paper Loading              | Pneumatic                                         |
| Pre-Cutting                | Equipped                                          |
| Tension Adjustment         | Automatic                                         |
| Wave Receiving Wheel       | Automatic Direction Adjustment                    |
| Overall Dimensions         | 3170 × 830 × 1150 mm                              |
