

ECO Air Filter Heat-Sealing Mould (Aluminum)

Internal Product ID: ENFT-AFM-032 • ENFT-EAF-001 • ENFT-LVAF-002

Unit of Measurement	Set
Brand	ENFT
Model Number	ENFT
Place of Origin	China
Certification	Manufactured Under Strict Quality Control
Min. Order Qty	100
Price	3000\$
Supply Ability	1000 units/month
Packaging	Std
Delivery Time	45 Days After Receipt of Advance Payment
Payment Terms	100% T/T in Advance

Overview

Heat-sealing aluminum mould designed for manufacturing Toyota ECO air filters. The mould set includes heating and cutting moulds, providing high precision, stable performance, and long service life. Compatible with ECO air filter production lines and heat-sealing forming machines. OEM customization is available.

Description

Toyota ECO Air Filter Heat-Sealing Mould
Product Overview

The ENFT Toyota ECO Air Filter Heat-Sealing Mould is engineered for the precise manufacturing of environmentally friendly (ECO) automotive air filters. Manufactured using high-grade aluminum and precision CNC machining, it delivers excellent dimensional accuracy, stable sealing performance, and an extended service life.

Designed for use with automatic and semi-automatic ECO air filter production lines, this mould provides reliable performance and consistent product quality for mass production.

Applications

- ECO Air Filter Heat-Sealing Machines

- Filter Trimming & Cutting Machines
- Automotive Air Filter Production Lines

Material

- High-Strength Aluminum Heating Mould
- Wooden & Nylon Cutting Moulds

Mould Configuration

Each mould set includes:

- 5 Heating Moulds
- 2 Cutting Moulds
- Total: 7 Mould Components

Key Features

- High-precision CNC machining
- Premium aluminum construction
- Excellent heat transfer and sealing performance
- Stable production with high dimensional accuracy
- Long service life and wear resistance
- Easy installation and maintenance
- OEM & custom mould manufacturing available
- Compatible with automatic and semi-automatic ECO filter production lines

Custom Manufacturing

Simply provide the filter OEM number, technical drawing, or product sample. ENFT will design and manufacture a customized mould that matches your production requirements with high precision.
