

ECO Air Filter Heat-Sealing Mould (Aluminum)

Internal Product ID: ENFT-DM-003

Unit of Measurement	Set
Brand	ENFT
Model Number	ENFT
Place of Origin	China
Certification	Manufactured Under Strict Quality Control
Min. Order Qty	100
Price	3000\$
Supply Ability	1000 units/month
Packaging	Std
Delivery Time	45 Days After Receipt of Advance Payment
Payment Terms	100% T/T in Advance

Overview

Heat-sealing aluminum mould designed for manufacturing Toyota ECO air filters. The mould set includes heating and cutting moulds, providing high precision, stable performance, and long service life. Compatible with ECO air filter production lines and heat-sealing forming machines. OEM customization is available.

Description

Item	Specification
Product Name	Toyota ECO Air Filter Heat-Sealing Mould
Model	ECO-TSM-07
Application	ECO Automotive Air Filter Production
Main Material	High-Strength Aluminum
Heating Moulds	5 pcs
Cutting Moulds	2 pcs
Total Mould Components	7 pcs
Manufacturing Process	Precision CNC Machining
Application Equipment	ECO Air Filter Heat-Sealing Machines
Compatible Lines	Automatic & Semi-Automatic ECO Filter Production Lines
Features	High Precision, Excellent Heat Transfer, Stable Sealing, Wear Resistance, Long Service Life
Customization	OEM & Custom Manufacturing Available
