

Automatic AB Glue Dispensing Machine for Fuel Filter Elements

Internal Product ID: ENFT-WFF-004 • ENFT-FGM-012

Unit of Measurement	Unit
Brand	ENFT
Model Number	ENFT-ABG-2000
Place of Origin	China
Certification	Manufactured Under Strict Quality Control
Min. Order Qty	1
Price	12,480.00
Supply Ability	30
Packaging	Standard Export Wooden Case
Delivery Time	30–45 Days
Payment Terms	30% Deposit 70% Before Shipment

Overview

The ENFT Automatic AB Glue Dispensing Machine is specially designed for bonding wound fuel filter elements with high precision. The machine automatically meters, mixes, and dispenses two-component adhesive (A/B), ensuring accurate glue ratio, excellent bonding strength, and consistent production quality.

Description

Item	Specification
Machine Name	Automatic AB Glue Dispensing Machine
Application	Fuel Filter Element Bonding
Glue Mixing Ratio	A:B = 10:1
Mixing Method	Automatic Dynamic Mixing
Pump A Flow Rate	9 ml/rev
Pump B Flow Rate	2.4 ml/rev
Glue Tank Capacity	A: 20 L / B: 20 L
Glue Output	1–10 g/s
Working Air Pressure	0.5–0.8 MPa
Power Supply	AC220V, 50Hz
Power	2000 W
Machine Weight	650 kg
Machine Dimensions (L × W × H)	850 × 950 × 1600 mm
