

Automatic flattening, cutting, net winding and net welding machine

Internal Product ID: ENFT-HDAF-023

Unit of Measurement	set
Brand	ENFT
Place of Origin	China
Certification	Manufactured Under Strict Quality Control
Min. Order Qty	1
Supply Ability	100 Sets/Month
Delivery Time	45 Days After Receipt of Advance Payment

Overview

Automatic flattening, cutting, net winding and net welding machine used for processing the inner and outer protective nets of air filters.

Description

Function: Used for processing the inner and outer protective nets of air filters;

Technical parameters:

Welding width: 580mm, cutting width: 750mm

Production speed: 2 - 3 pieces/minute

Welding rated power: 40KVA

Mesh thickness: 0.4 - 1mm

Motor power: 1.5KW * 2 units, PLC control

Overall dimensions: 2000*1800*1400

Remarks: Lapping and welding of inner and outer protective nets of the filter element.
