

Two-side edge bonding machine

Internal Product ID: ENFT-FMM-024

Unit of Measurement	Set
Brand	ENFT
Place of Origin	China
Certification	Manufactured Under Strict Quality Control
Min. Order Qty	1
Supply Ability	100 Sets/Month
Delivery Time	45 Days After Receipt of Advance Payment

Overview

Two-side edge bonding machine for air conditioning filter cores.

Description

Technical Specifications:

- 1. Applicable edge tape roll diameter (mm): 800mm
- 2. Dimension range of air conditioning filter core (mm): Length 80-450mm, Width 80-450mm, Height 8-60mm
- 3. Applicable edge tape size and hardness: Width: 10-70mm, Thickness: 0.5-5mm; Hardness: Soft and hard
- 4. Gluing width: 5-60mm
- 5. Production capacity (pcs/h): More than 200PCS/h
- 6. Capacity of glue injection machine (L): 20L
- 7. Edge attaching height accuracy and trimming accuracy (mm): ±0.5mm
- 8. Equipment size: Length * Width * Height = 1920mm * 1350mm * 1410mm
- 9. Voltage: 220V; Power: 6kw; Air pressure: >=0.6MPa
