

TYPE	SPEC SHEET
DATE	2026-09-11

Filter screen curing machine

Internal Product ID: ENFT-FMM-065

Unit of Measurement	Piece
Brand	ENFT
Place of Origin	China
Certification	Manufactured Under Strict Quality Control
Min. Order Qty	2
Supply Ability	100 Sets/Month
Delivery Time	45 Days After Receipt of Advance Payment

Overview

High-efficiency filter screen curing machine with stainless steel mesh belt and high-density insulation.

Description

- Technical Parameters:
- Speed: 10m/min
 - Machine size: 4000mm*500mm*1200mm
 - Voltage: 380V
 - Total power: 35KW
 - Air pressure: >=0.6MPa

- Equipment Features:
1. The mesh belt is made of stainless steel to avoid corrosion;
 2. Oven temperature: room temperature to 200°C adjustable;
 3. Using high density insulation material, the furnace body insulation effect is good.

- Physical Parameters:
- Weight: 200 kg
 - Volume: 2 CBM
